

Self-introduction: Hemanth Reddy Yaramala,002922147

I am Hemanth, an Information Systems Graduate student at Northeastern University, Boston. Previously, I worked at Infosys as a Software Engineer. During my tenure, I had a great experience in designing User-friendly Websites and creative data solutions for clients. I did my Bachelor of Technology in Electronics and Communication Engineering from JNTUK. The spring of 22 was my first semester at Northeastern University. Throughout my life, I have always wanted to learn something new every day, so I hope this course helps me reach that goal. I hope to become a technical manager in the long term. From this class, I hope to learn as much as I can about cloud technologies. (Preferred name: Hemanth) .
